

REMARKS

The final Action was issued on March 22, 2006 rejecting claims 1, 2 and 4-6 pending in the application by cited references.

In view of the rejections, the undersigned agent had a telephone interview with the Examiner and discussed the amendment. As a result of discussion, it was suggested if "one image pickup device" in claim 1 is amended to --only one image pickup device--, and claim 6 is incorporated into claim 1, such amended claim would be allowable.

In view of the Examiner's suggestion, claim 1 has been amended, and the specification has been slightly amended, as well. Also, according to the objection in paragraph 2 of the final Action, the term in claims 1 and 5 has been amended.

It is, therefore, believed that claims pending in the application are allowable over the cited references.

Reconsideration and allowance are earnestly solicited.

Respectfully Submitted,

HAUPTMAN KANESAKA BERNER
